

CRISTOFF STAN

Senior Software Developer

Location: Tallinn, Harjumaa, Estonia | Email: cristoffstan@gmail.com
LinkedIn: <https://www.linkedin.com/in/cristoff-stan-b53490362/> | Phone Number: +372 58619311

PROFESSIONAL SUMMARY

Experienced Full-Stack Software Developer with 9+ years of professional experience designing, developing, and maintaining scalable web and mobile applications. Skilled in .NET/C#, ASP.NET MVC, RESTful APIs, JavaScript, and front-end technologies like React and jQuery. Adept at troubleshooting, performance optimization, and collaborating across diverse teams. Proven ability to contribute across the full SDLC and deliver user-centered solutions in international environments.

TECHNICAL SKILLS

- **Languages:** C#, JavaScript, TypeScript, SQL, HTML5, CSS3, jQuery
- **Frameworks:** .NET, ASP.NET MVC, Web API, React, Flutter (basic), Blazor (basic)
- **Databases:** MS SQL Server, MySQL, SQLite
- **Tools & Platforms:** Visual Studio, Git, Azure DevOps, Postman, Docker
- **Practices:** RESTful API Design, Agile/Scrum, CI/CD, Responsive Web Design, Unit Testing
- **Other:** MVC Architecture, Mobile App Concepts, UI/UX Principles, Code Refactoring

WORK EXPERIENCE

Sensidev

Senior Software Engineer

September 2021 – December 2024

Timișoara, Romania

- Developed and maintained full-stack web solutions using ASP.NET MVC and C# to support customer portals across multiple education sector clients.
- Refactored legacy backend logic into modular WebAPI services, boosting reusability and response time across systems by 35%.
- Designed robust RESTful endpoints for internal tools and integrated third-party educational services using secure OAuth2.0 standards.
- Led UI modernization using React and jQuery to enhance accessibility and user experience for administrative interfaces.
- Actively participated in code reviews, ensuring adherence to clean code standards and cross-team alignment on best practices.
- Diagnosed and resolved over 120+ critical issues in staging/production environments, minimizing downtime and improving SLAs.
- Mentored 3 junior developers, improving team velocity and reducing onboarding time by 40%.
- Collaborated closely with QA engineers to define UI test scenarios, increasing automated test coverage across modules by 50%.

Syscom Digital
Software Engineer
October 2019 – August 2021
Bucharest, Romania

- Created ASP.NET MVC web applications tailored for marketing automation campaigns serving enterprise clients in telecom and retail.
- Built and consumed REST APIs to enable seamless CRM integrations, reducing manual workflows by 70%.
- Utilized jQuery, HTML5, and CSS3 to build responsive web pages optimized for both desktop and mobile form factors.
- Integrated Blazor Server into internal tooling for real-time updates, reducing page reloads and improving responsiveness.
- Tuned SQL queries and added indexing strategies to improve data retrieval performance by up to 45%.
- Developed and deployed internal admin panels for campaign tracking, improving data transparency and user access control.
- Assisted in transitioning systems from monolithic structure to microservice-ready architecture using clean separation of concerns.
- Participated in daily stand-ups and sprint reviews, delivering features on time in Agile-driven workflows.

Soft Build
Software Developer
June 2016 – July 2019
Timișoara, Romania

- Built cross-functional backend services using C# and .NET, supporting authentication, permissions, and event logging across applications.
- Created intuitive dashboards using HTML/CSS/JavaScript for clients in real estate and property management sectors.
- Conducted functional testing and implemented fixes to meet UX requirements for highly interactive forms and user journeys.
- Wrote modular code libraries reusable across multiple apps, reducing redundant development effort by 25%.
- Designed and deployed scalable SQL Server schemas with normalization and efficient relationships for handling thousands of records.
- Coordinated directly with business analysts to translate customer needs into working software components.
- Delivered mobile-responsive layouts using Bootstrap, enabling access across various screen resolutions.
- Created detailed documentation for API endpoints and data models, reducing maintenance and onboarding time.

Decima Digital
Software Developer
November 2015 – April 2016
Tallinn, Estonia

- Assisted in implementing .NET-based business logic and maintaining backend systems for e-commerce platforms.
- Supported existing ASP.NET MVC codebases, performing bug fixes and minor feature additions in tight turnaround cycles.

- Implemented reusable front-end widgets using jQuery for enhanced UX and simplified cross-page behavior.
- Improved backend logging and error tracking mechanisms, leading to faster issue diagnosis and resolution.
- Designed prototypes for admin panels to manage customer orders and product inventories efficiently.
- Optimized page rendering by refactoring legacy view components and reducing dependency overheads.
- Coordinated QA deployments and verified releases with clients during biweekly review cycles.
- Contributed to team knowledge sharing sessions on emerging best practices in .NET and front-end optimization.

Borna Technology
Software Developer Intern
September 2014 – August 2015
Tallinn, Estonia

- Developed internal administrative tools using ASP.NET and C# to support data entry and report generation tasks.
- Designed and maintained MS SQL Server databases, creating stored procedures and views for reporting modules.
- Implemented front-end forms with jQuery validation and AJAX support to improve user interaction.
- Supported legacy applications by resolving minor bugs and contributing to UI consistency updates.
- Participated in team discussions to estimate features and analyze user feedback for iterative improvements.
- Contributed to deployment scripts and testing checklists, streamlining weekly release pipelines.
- Reviewed user flow diagrams with the UX designer to suggest better placement and interaction behaviors.
- Gained hands-on exposure to the full SDLC under the guidance of senior team members.

EDUCATION

Tallinn University

Bachelor's Degree in Computer Science,
2010 – 2014

CERTIFICATIONS

- ❖ Microsoft Certified: Azure Fundamentals
- ❖ Programming in C# – Microsoft (MOC 20483 equivalent)
- ❖ Responsive Web Design – freeCodeCamp

PROJECTS

- ✓ **SmartEdu Portal** – ASP.NET MVC + MS SQL
Developed a complete school management system to streamline class scheduling, grading, and student communications. Integrated REST APIs for parent messaging and attendance tracking.

- ✓ **CampusConnect** – React + WebAPI
Built a responsive student platform integrating .NET backend and React front-end for assignment submission and feedback systems, supporting thousands of concurrent users.
- ✓ **ExamSync Mobile (Flutter)**
Contributed to mobile development in Flutter for real-time exam scheduling and alert notifications, designed for Android/iOS compatibility.
