

CRISTOFF STAN

Senior Software Developer

Location: Tallinn, Harjumaa, Estonia | Email: cristoffstan@gmail.com
LinkedIn: <https://www.linkedin.com/in/cristoff-stan-b53490362/> | Phone Number: +372 58619311

PROFESSIONAL SUMMARY

Versatile Full-Stack Developer with 13+ years of experience and proven expertise in building and maintaining Moodle-based e-learning platforms, LAMP stack architecture, and scalable cloud infrastructure. Adept in Moodle plugin/theme development, back-end integrations using PHP and Java, and performance optimization using AWS and CI/CD pipelines. Skilled collaborator with a track record of delivering robust e-learning solutions tailored to institutional and enterprise-level clients.

TECHNICAL SKILLS

- **Languages:** PHP, Java, Python, TypeScript, JavaScript, SQL, HTML, CSS
- **Frameworks:** Moodle, Laravel (basic), FastAPI, Flask, Django (basic)
- **Moodle Expertise:** Plugin & theme development, LMS integrations, REST & SOAP APIs, performance tuning
- **DevOps & Cloud:** Docker, CI/CD Pipelines, GitHub Actions, AWS, Heroku, DigitalOcean, Linux Shell
- **Database & Indexing:** MySQL, PostgreSQL, Elasticsearch, Database optimization, Caching strategies
- **Frontend:** React, Tailwind CSS, jQuery, Bootstrap, Odoo QWeb Templates
- **Tools:** Git, Postman, JIRA, Confluence, Figma, Zeplin, Storybook
- **Testing:** PHPUnit, Pytest, Jest, React Testing Library
- **ERP:** Odoo ORM & Modules (HR, CRM, Project, Finance)

WORK EXPERIENCE

Sensidev

Senior Software Engineer

September 2021 – December 2024

Timișoara, Romania

- Led Moodle plugin development initiatives, including theme customization, REST API integrations, and user permission modules tailored for educational workflows across departments.
- Implemented Moodle load balancing and database indexing, reducing peak-hour response time by 40% for 10,000+ concurrent student logins during examinations.
- Containerized Moodle deployments with Docker and set up GitHub Actions workflows to automate testing, building, and multi-environment release cycles for plugins.
- Integrated external APIs like Turnitin and Zoom using Moodle's plugin API layer, ensuring seamless synchronous and asynchronous learning sessions.
- Designed custom Moodle dashboards and widgets using HTML, PHP, and JavaScript, enabling instructors to track performance analytics and course progress in real-time.

- Oversaw cloud migration of Moodle instances to AWS EC2 and S3 with route53 configuration, session redundancy, and database replication across regions.

Syscom Digital

Software Engineer

October 2019 – August 2021

Bucharest, Romania

- Engineered LAMP-based Moodle solutions to support regional training hubs, including responsive UI components and backend logic in PHP to sync course data with external HR systems.
- Developed custom Moodle roles and authentication bridges using OAuth2 and LDAP, aligning course access with enterprise user directories and IT policies.
- Performed large-scale Moodle upgrades and patch management, ensuring module compatibility and database schema migrations during academic transitions.
- Created Moodle theme extensions with SCSS-based styling and JavaScript-based interactive learning elements to enhance student engagement.
- Automated Moodle backups and health checks via bash scripts and cron jobs, significantly reducing manual maintenance overhead and downtime.
- Collaborated with instructional designers to integrate H5P-based content into Moodle modules and ensure accessibility (WCAG) compliance across course assets.

Soft Build

Software Developer

June 2016 – July 2019

Timișoara, Romania

- Built scalable educational portals using Moodle and Odoo ERP for university clients, facilitating course scheduling, certification workflows, and student records management.
- Enhanced Moodle caching strategies using Redis and OPcache to support scalable multi-tenant deployments under limited server resources.
- Designed Moodle grading workflows and quiz banks with custom evaluation logic to support specialized medical and technical assessments.
- Conducted performance profiling and slow query optimization on MySQL for Moodle databases exceeding 200k user records and concurrent activities.
- Implemented CI/CD tooling for Moodle deployments using Jenkins and Docker Compose for staging and production instances.
- Contributed to internal documentation, Moodle development onboarding kits, and knowledge-sharing workshops across teams.

Decima Digital

Software Developer

November 2015 – April 2016

Tallinn, Estonia

- Assisted in Moodle-to-Odoo data bridge development to sync course enrollments and completion records to finance and HR modules for university billing systems.
- Customized Moodle certificate module for dynamic template rendering based on student status, course type, and institutional branding guidelines.
- Conducted patch-level upgrades on Moodle's core and plugins while ensuring backward compatibility through automated testing.
- Developed CLI scripts for Moodle site diagnostics and cron monitoring, improving server health alerting mechanisms.
- Maintained Moodle staging servers and implemented reverse proxies using Nginx for SSL termination and route-based application separation.

- Refactored Moodle theme components using vanilla JavaScript and Mustache templates to enhance mobile responsiveness.

Borna Technology

Software Developer Intern

September 2014 – August 2015

Tallinn, Estonia

- Contributed to Moodle plugin QA efforts, writing unit and functional tests for PHP-based components including activity modules and enrollment plugins.
- Prototyped interactive widgets for Moodle's dashboard using Bootstrap and jQuery to provide drag-and-drop interface enhancements.
- Wrote bash automation scripts for server snapshots and Moodle backup verification, aiding disaster recovery scenarios.
- Assisted with API integration tasks connecting Moodle LMS with RESTful endpoints for academic research management.
- Participated in design sprints with UI/UX teams to define wireframes for new Moodle themes and navigation structures.
- Conducted research on Moodle plugin development best practices and contributed to internal documentation and team wikis.

EDUCATION

Tallinn University

Bachelor's Degree in Computer Science,
2010 – 2014

CERTIFICATIONS

- ❖ **Moodle Developer Certification** – Moodle HQ
- ❖ **Docker for Developers** – Udemy
- ❖ **Python for Data Science** – Coursera
- ❖ **Odoo Technical Training** – OdooClass

PROJECTS

- ✓ **Moodle AWS CI/CD Framework:** End-to-end pipeline for Moodle deployment using Docker, GitHub Actions, AWS EC2, and S3; included rollback strategies and blue-green deployments.
- ✓ **Learning Analytics Dashboard:** Real-time visualization dashboard using Moodle logs, Elasticsearch, and Kibana for tracking engagement and course outcomes.
- ✓ **Custom Certification Plugin:** Moodle plugin that auto-generates multilingual PDF certificates with QR validation and dynamic background templates.
