

CRISTOFF STAN

Senior Software Developer

Location: Tallinn, Harjumaa, Estonia | Email: cristoffstan@gmail.com
LinkedIn: <https://www.linkedin.com/in/cristoff-stan-b53490362/> | Phone Number: +372 58619311

PROFESSIONAL SUMMARY

Product-driven Full Stack Engineer with 9+ years of experience crafting polished, performant, and maintainable web applications. Specializing in modern frontend stacks—React, Next.js, TypeScript, Tailwind—and comfortable handling backend logic with Node.js and Prisma. Known for shipping high-quality features quickly, collaborating closely with designers, and building intuitive, user-centric interfaces. Strong advocate for clean code, smart iteration, and scaling products without compromising UX.

TECHNICAL SKILLS

- **Languages:** Python, TypeScript, JavaScript, SQL, HTML, CSS
- **Frameworks:** FastAPI, Flask, Django (basic), Odoo ORM
- **ERP & Modules:** Odoo ERP (custom modules, workflows, ORM, XML views, JavaScript client scripting)
- **Databases:** PostgreSQL, MySQL, MongoDB, Elasticsearch
- **Data Processing:** Pandas, NumPy
- **DevOps:** Docker, GitHub Actions, CI/CD Pipelines, Vercel, Linux Shell
- **Frontend:** React, Next.js, Tailwind CSS, Redux, jQuery, Odoo QWeb Templates
- **Tools:** Git, Postman, JIRA, Confluence, Figma, Zeplin, Storybook
- **Testing:** Pytest, Jest, React Testing Library, TDD
- **Cloud & Deployment:** Vercel, Heroku, DigitalOcean, GitHub Pages

WORK EXPERIENCE

Sensidev

Senior Software Engineer

September 2021 – December 2024

Timișoara, Romania

- Developed full-stack solutions integrating FastAPI backends with Odoo ERP, enabling dynamic inventory and CRM data flow across PostgreSQL and third-party APIs.
- Built RESTful APIs for mobile and web clients, enforcing role-based authentication and token lifecycles with JWT and OAuth2 protocols.
- Integrated Elasticsearch for advanced search and reporting in Odoo dashboards, improving query time by over 60% on large datasets.
- Designed CI/CD pipelines with Docker and GitHub Actions for staging and production deployments of Python and Odoo services.
- Customized Odoo modules for HR, invoicing, and project management, modifying both server-side logic and QWeb templates.

- Delivered data transformation pipelines using Pandas and NumPy, supporting analytics dashboards and export-ready CSVs for management.

Syscom Digital

Software Engineer

October 2019 – August 2021

Bucharest, Romania

- Created data ingestion systems using Python + FastAPI for campaign analytics, normalizing third-party API feeds into PostgreSQL and MongoDB.
- Implemented Odoo add-ons to handle CRM segmentation, multi-stage workflows, and email campaign synchronization with external tools.
- Enhanced API gateway layers to handle complex request routing, caching, and monitoring with minimal overhead.
- Wrote ETL scripts using Pandas to process large Excel datasets, resolving malformed fields, outliers, and joining client CRM records.
- Applied DevOps practices with Docker Compose for local testing and staging environments, supporting collaborative module development.
- Created front-end forms in Odoo using HTML, CSS, and JavaScript for seamless lead management.

Soft Build

Software Developer

June 2016 – July 2019

Timișoara, Romania

- Developed internal HR and finance tools powered by Python backends and PostgreSQL schemas, with custom Odoo workflows for document automation.
- Refactored legacy Python modules to adopt modern Odoo ORM practices, improving maintainability and reducing runtime errors by 45%.
- Collaborated on developing an internal ERP module to track team allocation, linking timesheets with resource and payroll data.
- Deployed and monitored Odoo environments on Linux VMs with Nginx reverse proxies and daily cron backup jobs.
- Integrated multiple APIs (Mailgun, Zoho, GDrive) into business modules with fault-tolerant retry logic.
- Authored internal documentation for Python/Odoo codebases and conducted onboarding sessions for junior developers.

Decima Digital

Software Developer

November 2015 – April 2016

Tallinn, Estonia

- Created Python-powered data collection services to track web analytics and feed PostgreSQL databases for BI reporting.
- Supported Odoo migrations and database reconciliation for client ERP instances, resolving version conflicts and broken relationships.
- Helped modernize front-end logic using jQuery and raw JavaScript to work within Odoo's templating limitations.
- Built scripts to clean malformed financial entries and sync them with correct journal entries using Odoo's ORM.
- Participated in team retrospectives and refactoring sprints to standardize backend practices.
- Collaborated on static site deployment via GitLab pipelines and containerized staging.

Borna Technology
Software Developer Intern
September 2014 – August 2015
Tallinn, Estonia

- Developed standalone backend scripts in Python to automate data processing and file transformations during ERP migration.
 - Assisted with early-stage FastAPI experiments for microservices exposing account metadata and logs.
 - Conducted research on Odoo documentation and supported feature prototypes using XML views and client JavaScript.
 - Wrote testing utilities and schema seeding scripts to accelerate local development setups for ERP modules.
 - Prototyped basic user interfaces using vanilla JavaScript, HTML, and inline CSS for internal dashboards.
 - Shadowed senior devs and learned essentials of API contracts, CI pipelines, and database design.
-

EDUCATION

Tallinn University

Bachelor's Degree in Computer Science,
2010 – 2014

CERTIFICATIONS

- ❖ Python for Data Science – Coursera
 - ❖ Docker for Developers – Udemy
 - ❖ Odoo Technical Training – OdooClass
-

PROJECTS

- ✓ **ERP Campaign Sync Tool:** Custom Python + Odoo module to sync campaign status, metrics, and leads from third-party CRM APIs.
- ✓ **Finance Report Generator:** Backend microservice using FastAPI + Pandas to process and generate real-time financial reports in PDF/CSV.
- ✓ **Odoo CI/CD Pipeline:** Built automated deployment pipelines for Odoo modules with Docker, GitHub Actions, and PostgreSQL fixtures.
