PROFESSIONAL SUMMARY

Experienced iGaming strategist and cross-platform Game Manager with over 8 years in product operations, game lifecycle management, and retention strategies. Proven track record in leading game provider integrations, optimizing monetization KPIs, and driving promotional campaigns across platforms like Soft2Bet, SoftSwiss, TrueLabel, EasyRocket, and Advabet. Passionate about high-impact player engagement, platform growth, and data-informed decision-making.

TECHNICAL SKILLS

- Game Portfolio Management: Soft2Bet, SoftSwiss, Advabet, EasyRocket, TrueLabel
- Data & KPI Analysis: GGR, CTR, Conversion, Session Time, Churn
- Promotion & Campaign Planning: Seasonal Offers, Retention Discounts, Event Triggers
- Team Leadership & Training: Cross-functional Teams, Stakeholder Engagement, KPI Dashboards
- Onboarding & Integration: Game Providers, Compliance Verification, QA UAT Cycles
- Tools: Jira, Confluence, Tableau, Google Looker, Excel PowerPivot, CRM Tools, Figma
- Languages: SQL (for BI queries), JavaScript (event tracking), Python (automation)

WORK EXPERIENCE

Senior Software Engineer

Sensidev

September 2021 – December 2024

Timișoara, Romania (Remote)

- Directed integration of over 30 third-party game providers onto multiple platforms including Soft2Bet, Advabet, and SoftSwiss with structured onboarding flows and compliance checklists.
- Spearheaded strategic initiatives to optimize portfolio performance, increasing monthly GGR by 22% through session time optimization and CTR funnel testing.
- Collaborated with BI to implement KPI dashboards tracking game performance, provider engagement, and promotion ROI across platforms.
- Curated smart lobby configurations using player segmentation, increasing average session duration by 18% in Q3 2023.
- Managed a cross-functional game management team of 6 to deliver onboarding, QA testing, and launch readiness for new game titles.
- Partnered with CRM and marketing units to execute 10+ seasonal and milestone-based retention campaigns synced across providers.

- Maintained compliance and platform stability through continuous monitoring, resulting in a 97.5% stability score on new releases.
- Implemented automated alerting system for underperforming games based on real-time GGR and conversion dips.

Software Engineer

Syscom Digital

October 2019 – August 2021

Bucharest, Romania (Remote)

- Coordinated game lifecycle management across EasyRocket and TrueLabel platforms, ensuring seamless rollouts and version updates.
- Facilitated integration testing and API alignment for over 15 provider pipelines, enabling faster onboarding and content delivery.
- Conducted CTR heatmap analysis on slot and live dealer titles, boosting click-through rates by 14% with visual adjustments.
- Supported marketing teams with A/B-tested banner placements and in-lobby offers, improving first-play conversion rates by 11%.
- Managed KPI benchmarks across providers, using variance reports to identify top-performing content for promotion.
- Developed weekly performance review reports for leadership, incorporating actionable game insights for the Retention department.
- Partnered with QA and customer support to identify game-related bugs or drop-off points, contributing to a 30% reduction in incident tickets.
- Trained junior product managers and ops specialists on platform-specific content workflows and compliance requirements.

Software Developer

Soft Build

June 2016 – July 2019

Timișoara, Romania (Remote)

- Designed content ingestion tools and automated scripts for integrating game metadata across multiple iGaming platforms.
- Built configurable modules for real-time promotions and bonus triggers tied to game performance and seasonal events.
- Participated in UI optimization for game lobbies and category sorting based on trending titles and usage data.
- Implemented metrics pipeline for provider-specific GGR contributions and volatility classification.
- Streamlined onboarding documentation for new partners, cutting integration time by 25%.
- Wrote Python utilities for uptime monitoring and API health checks across SoftSwiss and TrueLabel instances.
- Supported campaign activation scheduling with cross-platform sync using internal CMS and provider tools.
- Partnered with retention analysts to apply behavior-based segmentation for reward triggers.

Software Developer

Decima Digital

November 2015 – April 2016

Tallinn, Estonia

- Built internal analytics dashboards visualizing session time and retention events per game cluster.
- Supported localization workflows for game title rollouts in multilingual regions including Baltics and Nordics.

- Delivered QA feedback loop integrations for provider assets and versioned deployments.
- Developed small-scale promotional modules used in jackpot sync features across providers.
- Contributed to early lobby recommendation systems using conversion heuristics.
- Managed JSON-based configuration updates for live games with minimal downtime.
- Enabled platform alerts for downtime or compliance lapses with automated logging.
- Assisted in security patch deployment cycles across iGaming backend services.

Software Developer Intern

Borna Technology

September 2014 – August 2015

Tallinn, Estonia (On-Site)

- Shadowed platform engineers during game integrations and REST API authentication stages.
 - Developed automation scripts for static content verification during game QA.
 - Learned Soft2Bet architecture and built sandbox test plans for game behavior.
 - Contributed to ticket triaging for game malfunction or unexpected analytics drop-offs.
 - Supported initial catalog tagging and categorization for onboarding UI.
 - Delivered technical documentation for test games and dummy content packages.
 - Designed simple admin UI for toggling game visibility in development.
 - Collaborated on gamification modules like badge systems and progress unlocks.
-

EDUCATION

Tallinn University

Bachelor's Degree in Computer Science,
2010 – 2014

CERTIFICATIONS

- ❖ Certified Game Operations Manager (iGaming Academy)
 - ❖ Advanced KPI & BI for Gaming Platforms (Gaming Innovation Lab)
 - ❖ Agile Leadership for Product Teams (Scrum Alliance)
 - ❖ GDPR & Compliance in Online Gambling (EGR Certified)
-

PROJECTS

- ✓ **Cross-Platform Game Performance Dashboard** – Designed a real-time Tableau dashboard integrating GGR, CTR, and churn metrics from Soft2Bet and Advabet into a unified KPI visualization tool.
- ✓ **Provider Onboarding Automation** – Led development of a pipeline that automates game metadata ingestion, test plan generation, and UAT sign-offs, reducing onboarding time by 30%.
- ✓ **Smart Lobby Curation AI** – Built a rule-based engine that surfaces game suggestions based on user behavior and trend detection, increasing first-session engagement rates.
